The latest recommendation

"We choose Wim as our photographer because as soon as we saw his photos we fell in love with how he captured such beautiful pictures with the most amazing light and detail.

We count ourselves extremely lucky that Wim was available to photograph our wedding because not only did he capture the atmosphere and essence of the day but he also was an integral part of it. *He made* ourselves, our family and friends so *relaxed* and at ease, it was like having an old friend at our wedding!

All of our guests commented on how *professional*, kind, and personable Wim was. He had the ability to be there at every moment to *capture lasting memories* while also being discreet and almost invisible, like a #ninjaphotographer!

We couldn't be happier with the end results of the photos Wim captured, he captured us at our *most natural* and our guests in the individual moments throughout the day. He was an absolute pleasure to deal with from our first conversation with him, so personable and genuinely interested in us as a couple.

We could only ever recommend Wim as one of the best photographers to work with. *A kind and professional person* who made us feel at ease, *allowing us to be ourselves* throughout our day."
